DANIEL I. QUINT,	

SCHOOL REPORT.

To the Citizens of New Durham.

In compliance with the law your Board of Education herewith submits its third annual report, for the year 1888. Although we have but little, comparatively to present respecting the schools taught in town the past year, yet it is gratifying to us to be able to represent them generally in a prosperous condition, while in some instances the result has not been entirely satisfactory.

Our teachers were selected with care and a due regard to adaptability to each school, but there were not as many applicants as formerly, hence the work of securing efficient teachers has been greatly increased, causing a comparative increase in the charges of the School Board; nevertheless, we have been fortunate in securing the services of competent instructors, who have discharged their duties faithfully and generally to the satisfaction of our people and with a fair measure of success.

We do not propose to report the work done by each teacher separately, as heretofore, and tell of his or her devotion to duty, or speak harshly of each one's particular delinquencies, for if commendations are pronounced on some, others will be offended or discouraged if they do not receive the same.

We believe that public censure or praise, when it becomes personal, ought to be omitted in our school reports. Our most successful teachers are well known in town. "By their fruits ye shall know them."

Our schools are now classed much better than they were three years ago and we have thrown out of use many text books that were objectionable.

We have introduced Harper's geographies with good success for a list of other text books we would refer you to the report of last year.

There is now among our most advanced scholars an apparent need of a higher grade of grammar, than that now in use, which will in due time be considered.

At our last annual meeting the School Board were instructed to consider the subject of more centrally locating the ridge school-house and look up a suitable site for the same. In compliance with the above instruction, we decided that the lot now owned by Ira Evans would best accommodate the districts formerly known as two and three, and we would advise the purchase of said lot and the removal of one of the two houses to the same, and the sale of the other.

All of the houses now in use are more or less out of repair and several are destitute of out-buildings, and we would recommend that all be thoroughly repaired and painted and provided with suitable out-buildings.
